

## CLEANING INSTRUCTIONS

### CARPETS

A strong brush will remove most dry stains. Simply spray area liberally with Miracle Solution™ and then use the brush to rub in all directions until the spot disappears. For wet stains spray, brush, then use a towel to soak up the spot. If the spot returns, wait until dry and repeat the process. It should stay clean after this second application.

### PAINTED SURFACES

#### *Gloss or Semi-Gloss Paints*

Use a scrubber pad labeled as nonabrasive to clean the affected area by mist spraying Miracle Solution™ on the affected surface, scrubbing in all directions, and wiping clean.

#### *Flat Paints*

Apply Miracle Solution™ first to a soft towel and then lightly touch the spot until it is gone.

Note that when cleaning a large area such as a painted wall, door, or sign, etc. a good rule of thumb is to only apply Miracle Solution™ one section at a time, cleaning, rinsing, then moving onto another section. Do not leave Miracle Solution™ on a painted surface for an extended period unless you want to remove paint from the surface.

### VINYL TILE

Apply Miracle Solution™ by spraying one section at a time. Use a dark green scrubber pad (heavy duty) to scrub the sprayed section then wipe excess product and dirt away. The floor should quickly restore to look like new!

### CARS, BOATS, GOLF CARTS, GO-CARTS ETC.

Use Miracle Solution™ in place of soap. Presoak vehicle with water. Then, mist spray Miracle Solution™ in an area about three feet square. Immediately clean area with a nonabrasive scrubber pad, wash and rinse again thoroughly with water. For rims and wheels: spray, scrub, and rinse with water. Do not leave Miracle Solution™ on custom wheels for an extended period.

### LEATHER

Mist spray a small section at a time. Use a soft brush or terry cloth towel to gently clean section and immediately wipe dry the cleaned section before moving onto the next. Do NOT leave Miracle Solution™ on leather for more than 30 seconds! Be SURE to follow cleaning with a good leather conditioner and dressing after cleaning.

✿ The ideal way to clean so many things! ✿

Carpets	Engines	Baby Soils	Red stains
Upholstery	Vinyl	Pet Stains	Concrete
Leather	Rust	Spray Paint Overspray	Oil Spots
Countertops	Aluminum	Permanent Marker	Painted Signs
